Jane Henney, FDA Commissioner
Dockets Management Branch
(HFA 305)
5630 Fisher's Lane
Room 106 Rockville, MD 20852

Dear Jane Henney,

I would just like to tell you that I am **disappointed** that the FDA continues to ignore the safety concerns of consumers and chooses instead to help companies developing biotech products. I feel the FDA should require labeling of genetically engineered food for consumers.

Thank you for your kind attention to this **matter**.

Sincerely,

Laura Wells
